Strategic Alliance

- Kinnamon and Bixler are strategic partners in the delivery of online payment solutions for Fortune 100 companies
- Kinnamon is a minority-owned business process outsourcing firm which has expertise in operations, finance and information technology
- Kinnamon is a member of the National Minority Supplier Development Council and a certified as both MBE and WBE
- Bixler is the “best in class” developer of online payment solutions for the U.S. Department of Treasury

Online Payment Solution

Private sector customers can use alternative payment methods to pay current and past due balances:

- Customers can access payment solution via the internet
- Customers can talk to a Customer Service Representative who accesses the same payment solution via the internet
- Payment methods supported include:
 - Debit cards
 - Credit cards
 - ACH (automated clearinghouse) payments

Safe and Proven Online Payment Solution

- The exclusive developer for the Federal Government's online payment portal, "www.Pay.gov"
- Strong and growing revenue base with more than 50 Federal e-commerce accounts
- Kinnamon/Bixler platform processes \$1 billion in transaction value on an annual basis
- Seamless delivery and 99.99% uptime for more than 3 years

U.S. Department of Treasury Online Payment Portal: Powered by Bixler

“Best in Class” Security Features

- Secure Sockets Layer (SSL) encryption technology with 128-bit encryption
- Redundant servers housed in a state-of-the-art, top-tier, secure facility
- Load balancing for peak transaction periods and fail-over capability
- Secure firewalls protect each tier of architecture
- Data integrity checks prevent error and fraud
- 99.99% uptime for over three years

Safe and Scalable Solutions

Provided transactional processing capability to the DOT and six bureaus, including a unique processing method to handle specific security needs, a scalable transaction platform and a high-speed remittance platform.

Provided the FCC with a highly secure and scalable Internet transaction platform that permits citizens to apply for or renew all types of broadcast licenses, from a \$14 amateur license to a \$100,000 professional license.
